NodOn

ZIGBEE WALL SWITCH

Wireless and battery-free smart control via Zigbee

REF : NO-CWS-4-1-00

EAN : 3700313920893

EXISTE EM : BRANCO

DESCRIÇÃO :

The Zigbee wall switch from NodOn allows you to add a control point without any wiring work, to control your lights, shutters, heating, or home automation scenarios. Wireless and battery-free, it operates using the energy generated by pressing its buttons. A sustainable, flexible, and easy-to-install solution.

PONTOS FORTES :

- **Wireless & battery-free:** powered by mechanical energy, no maintenance required.
- **Ultra-easy installation:** adhesive or screws, no wiring or wall cutting needed.
- **Versatile:** control lights, heating, shutters, or smart home scenarios.
- **Easy two-way switch setup:** create a two-way switch setup without any work in under 10 minutes.
- **Zigbee Green Power:** low-energy protocol, ideal for the Zigbee 3.0 ecosystem.
- **Direct pairing:** with NodOn modules via the NodOn Connect app.

CARACTERÍSTICAS :

- **Power supply:** kinetic energy (no battery)
- **Operating temperature:** -20°C to +65°C
- **Radio protocol:** Zigbee Green Power
- **Frequency:** 2.4 GHz IEEE 802.15.4
- **Max radio power:** 7 dBm / 5 mW
- **Channels:** 11 to 26 (default: channel 11)
- **Radio range:** up to 15 meters
- **Protection rating:** IP20

- **Installation:** adhesive strips or screws (not included)

- **Installation:** adhesive strips or screws (not included)
